Where we work in the UK & Ireland

Find out more about our UK & Ireland offices, factories, distribution centres and boutiques...

We employ around 8000 people across more than 20 sites in the UK and Ireland.

Our UK headquarters is based at City Place, Gatwick, just outside the airport. This is home to our UK food and beverage businesses, Nestlé Waters, Nestlé Nutrition, Nespresso, Nestlé Professional, and Purina PetCare, as well as corporate functions, with approximately 1000 employees on site. Gatwick was the first pet friendly Nestlé office where employees can bring their dogs to work.

The city of York is home to our UK and Ireland Confectionery business and many of our critical functions. Employing around 2500 people, the York campus includes an office, the Product Technology Centre for R&D, the Nespresso contact centre and a distribution centre, plus one of the world’s largest confectionery manufacturing plants. Over 5 million KitKats are made here every day, alongside Aero, Polo, Yorkie and Milkybar.

Our Ireland headquarters is located at Citywest Business Campus in Dublin. Operations span the UK and Ireland with:

- Three further Confectionery sites (Fawdon, Girvan & Halifax);
- Two Beverage factories (Dalston & Tutbury);
- Three Purina PetCare factories (Aintree, Sudbury & Wisbech);
- Three Cereal Partners UK sites (Bromborough, Staverton & Welwyn Garden City)
- One Nestlé Waters factory (Buxton).
- An ever-growing number of Nespresso boutiques across many UK and Irish towns and cities.
