

Nestlé UK & Ireland - Vegan suitable products

Nestlé UK Ltd is committed to providing the most recent and correct information about its products. All the products detailed below are UK market products, we are unable to provide the dietary status on non-UK products. Some UK retailers import Nestlé products from overseas, we are unable to guarantee that these imported Nestlé products are suitable for you to consume. They are like their UK counterparts, but there are often recipe and production differences according to the country of origin.

We recommend checking the product label, even if you have previously consumed the product

All products on this list do not contain any ingredients of animal origin. The **UK Vegan Society** website states *that 'products registered with the Vegan Trademark can correctly say 'may contain milk'.* Products listed in **bold** are recent additions/alterations.
